Residential Waste Containerization

As of **November 12, 2024**, new rules now are in effect to begin containerizing all residential trash. New York City will finally remove the mountains of black bags from our streets, reclaiming public space and improving quality of life.

The new rules also apply to special-use buildings receiving DSNY collection – including City agencies, nonprofits, houses of worship, and professional offices in residential buildings.

Info Sessions

Join a virtual info session to learn more about DSNY's new containerization rules.

Residential Properties with 1-9 Units

As of **November 12, 2024**, all properties with 1-9 residential units are required to use bins, 55 gallons or less, with secure lids for trash set out.

If you already use a bin with a secure lid that is 55 gallons or less for trash set out, you may continue to use it until June 2026. After that, you will need to switch to the Official NYC Bin.
